Full-stack product engineer (TypeScript/Next.js, Rails, PostgreSQL, AWS) owning features from UX to database, building agentic dev workflows to ship faster: multi-agent coding, MCP tooling, AI code review on every PR.

Experience

- | | |
|---|--|
| Wolpack Digital
<i>Full-Stack Engineer</i> | Sept 2025 – Present
<i>Cluj-Napoca, Romania</i> |
| <ul style="list-style-type: none">Sole engineer on cashli.io (US fintech, 500k+ downloads): Rails/PostgreSQL backend first, now the full app.Filtered third-party data pre-ingestion: up to 95% less DB write load, deadlocks from 10k+/week to zero.Lead engineer on fleetwitness.co.uk, a fleet monitoring SaaS for thousands of trucks (team of 3 + QA): migrated the raw-data API sold to third parties onto AWS (ECS, ALB, WAF, autoscaling), built to scale and extend.Built the entire v1 of the Wolpack AI estimator: agent harness, tool calls, messaging, UI and data layer.Built AI code review pipelines in CI for multiple client repos (latest Anthropic models, per-project prompts), catching bugs and quick fixes before human review. | |
| <i>Full-Stack Developer Intern, Wolpack Digital</i> | June 2025 – Aug 2025 |
| <ul style="list-style-type: none">Built and tested Ruby on Rails and JavaScript features for a food shopping app: REST APIs and database models. | |
| Freelance, RNGO.ro
<i>Full-Stack Engineer</i> | Dec 2024 – Present
<i>Cluj-Napoca, Romania</i> |
| <ul style="list-style-type: none">Built and run a fast, UX-focused car rental platform for a Cluj-based business: booking with tiered and seasonal pricing, airport transfers (Mapbox), bilingual UI, and a realtime admin dashboard (Next.js, Convex, Clerk).2–3k monthly visitors (5k+ peaks) and 20–25 bookings per month; own features, upkeep and deploys. | |

Projects

[more at mihaicrisan.com](https://mihaicrisan.com)

- Busu Cluj** | *Swift, SwiftUI, MapKit, Convex, TypeScript*
<https://busu-cluj.app>
- Live transit app for Cluj-Napoca (iOS, in beta): 430+ vehicle positions every 20s, arrivals, timetables.
 - Convex backend syncing GTFS from the Tranzy API with three-tier caching, polling gated on active viewers.
- Zalem (Bachelor Thesis)** | *Next.js, TypeScript, Convex, AI SDK*
mihaicrisan.com/work/zalem
- Built a shopping chatbot with context engineering first: classical algorithms shortlist products, the LLM only re-ranks and explains, and product facts are hydrated from the live catalog by ID.
 - Raised factuality from 0.53 to 0.76 with grounding and citations (34-question Promptfoo eval, same model).
- Nara (University Research Project)** | *Next.js, Convex, Python, FastAPI, Docling*
mihaicrisan.com/work/nara
- Led a team of 6 and architected the system: a document Q&A chatbot on a RAG ingestion pipeline handling PDF, DOCX, PPTX, XLSX and images (OCR) with structure-preserving chunking.
 - Implemented hybrid search (vector + full-text RRF), citing source chunks in every answer.

Education

- | | |
|---|----------------------|
| Babeş-Bolyai University <i>MSc in Software Engineering</i> | Oct 2026 – June 2028 |
| Babeş-Bolyai University <i>BSc in Computer Science (GPA: 9.01/10)</i> | Oct 2023 – June 2026 |
| <ul style="list-style-type: none">Competitive Programming: 650+ problems solved on pbinfo.ro, Romania's largest problem archiveOlympiad in Informatics: Honorable Mention 2022, attendee 2021 & 2022 | |

Certifications

- | | |
|--|-----------|
| AWS Certified Solutions Architect – Associate | Sept 2026 |
|--|-----------|

Technical Skills

Languages: TypeScript, JavaScript, Ruby, Python, Swift, C/C++, SQL
Frameworks: Next.js, React, Ruby on Rails, Convex, Tailwind
Infrastructure: AWS, Docker, PostgreSQL, Vercel, Clerk, Git, CI/CD
AI & Agentic: Claude Code, Codex, MCP, multi-agent workflows, AI SDK, RAG, LLM evals

Languages

Romanian (native) | **English** (Cambridge Advanced, C1) | **German** (B2)
